ENGR 96A: Assignment 3

11/19/2015

Summarize the lecture about engineering ethics. This is an individual assignment; the due date is 12/03/2015.

Guidelines for the summary:

- The summary should have a title, the author’s name and the submission date.
- Use Times New Roman 11pt or a similar font.
- Use 1.5 spacing.
- Use 1 inch margins (top, bottom, left and right).
- Word count: about one page. No more than one page. Absolutely no more than one page.
- Handwritten summaries are not accepted except if you prove that you are an artist with an exceptional talent. You still need to measure the margins and count the number of words in your report.
- Do not plagiarize, work alone.

The paper format and the overall organization are important.

A soft copy is not needed for this assignment just a hard copy.
