Assignment Specs

*Each* student is to prepare and submit a paper when we meet on Monday, October 14.

**Format:**

- 2 to 5 pages
- 1 inch margins
- 12 point, Times Roman Font
- Single space (double space between paragraphs)

**Content:**

*Hypothetical:* Assume you work for a software development company, and that you, along with a number of your colleagues, are attending the conference and go to this presentation. You will need to report your impression of this particular presentation to your management folks.

Suggested topics/issues to consider in preparing your paper:

- What were the key points made – including those expressed by the panel?

**Pros and Cons:**

- What is your understanding of the benefits of the agile approach to software development?

- What is your impression of the difficulties in using agile?

Did the materials provided (see the links on the CSc 171/233 website), as well as the video give you a better understanding of agile?
